

WILD about SCIENCE

Mitchell Odyssey Foundation Symposium '09

I N V I T A T I O N

Saturday, November 7, 2009
9:30 am - 4:30 pm

Steveston-London Secondary School

The Mitchell Odyssey Foundation's 3rd Annual Symposium will focus on providing innovative resources to help Odyssey teachers stimulate students to explore science, technology and mathematics.

By strengthening connections and facilitating collaboration, the Odyssey Network of educators will work together to develop better practices and inspire new ideas for engaging students.

Hands-on Presentations will include:

Earth Odyssey – Instructional Strategies To Encourage Scientific Thinking In Students

Dr. Eileen van der Flier-Keller, from Pacific CRYSTAL, will lead an interactive activity demonstrating geological time and major events in Earth's history.

Engaging Teens in Science

Science World's David Savory will present and discuss activities guaranteed to excite and inspire teens to explore science.

Odyssey Teachers will share their program experiences, successes and challenges. Delegates will pre-select topics for continuous improvement workshops covering diverse themes such as:

A New Spin On Motion

Fuel Cell Cars – Race with Technology

Stories in Stone: Rocks, Fossils and Earth's History

Other workshop topics will examine career discovery opportunities, technology in the classroom, robotics programming, sustainability issues and outreach programs.

Delegates will enjoy many opportunities to network and exchange ideas throughout the day. Following presentation of Odyssey Outstanding Achievements Awards, various prizes will be awarded including probe kits, robots and fuel cell cars.

Registration:

Please register with
kristiansen@m-o-f.org
before October 9, 2009.
